

TURNKEY 100-BED HOSPITAL EQUIPMENT PACKAGE

Certified German Medical Technology — Fully Maintained, Ready for Deployment

The only requirement is premises and a building to start up.

Executive Summary

This dossier presents a **complete, fully equipped 100-bed hospital package**, sourced exclusively from **certified German manufacturers** and maintained to the highest operational standards. The equipment is **partially new and not older than 8 years**, stored and serviced in Germany, and ready for immediate inspection and deployment.

This offer represents a **rare opportunity** to acquire a full hospital infrastructure at a fraction of the cost of new equipment. A comparable new installation would require around **€18 - €20 million**, making this package an exceptional value proposition for governments, ministries of health, private hospital groups, and institutional investors.

The package covers **all major clinical departments**, including surgery, ICU, neonatal care, diagnostics, laboratory, gynecology, physiotherapy, and emergency medicine — ensuring a complete operational ecosystem from day one.

Payment: 50 % by Order, 40 % before shipment after Control by your people (client inspection at this stage is possible) and 10% after installation protocol.

After LOI and POF a first inspection of the main components is possible.

Guarantee: 1 year

Additional equipment (€ 275.000 Euro for 1,5 Tesla or € 485.000 Euro for 3,0 Tesla). For this the building has to be prepared for the weight.

Quantity Description Manufacturer Remarks

1 MRI Siemens Magnetom Esenza Siemens

1,5 Tesla or Spectra with 3,0 Tesla

Strategic Advantages

1. German-Certified Quality

All equipment originates from leading German and European manufacturers such as **Siemens, Philips, Maquet, Draeger, Aesculap, Zeiss, Olympus, AGFA**, and others. These brands represent global benchmarks in reliability, precision, and long-term serviceability.

2. Full Hospital Coverage

The package includes equipment for:

- Central sterilization
- Surgery (5 operating theatres)
- ICU
- Emergency ward
- Neonatal & infant care
- Gynecology & delivery
- Diagnostic imaging
- Endoscopy
- Physiotherapy
- Central laboratory
- Nursing & station furnishing
- Miscellaneous emergency and rescue equipment

3. Immediate Deployment

All items are stored and maintained in Germany. Inspection by your technical team is available **after LOI and POF**.

4. Transparent Payment Structure

- **50%** upon order
- **40%** before shipment (after client inspection)
- **10%** after installation protocol

5. Optional MRI Upgrade

A **Siemens Magnetom Essenza 1.5T** or **Spectra 3.0T** can be added upon request. Building reinforcement may be required due to weight.

DEPARTMENT-BY-DEPARTMENT EQUIPMENT LIST

Below is the complete structured inventory, presented in a clean, procurement-ready format.

01 — Central Sterilization Section

- Instrument Washing Machine — HAMO
- Steam Sterilizer large 4 STE — Lautenschläger
- Quick Steam Sterilizer — HAMO
- Foil Welding Machine — HAVO
- Ultrasound Cleaning Bath — WEBECO
- 10× Sterilization Containers — Aesculap
- 3× Stainless Steel Cupboards — Aesculap
- 3× Stainless Steel Sideboards — Aesculap
- 2× Stainless Steel Tables — Aesculap

02 — Surgery Ward (1 Septic + 4 Aseptic Theatres)

- 3× Operating Tables, hydraulically adjustable — Maquet, Schmitz
- 3× Operating Lamps — Hanalux
- 3× Satellite Lamps — Hanalux
- 2× Floor-Standing OP Lights — Hanalux
- 2× Anaesthesia Systems — Draeger
- 3× Patient Supervision Monitors — Nikon Kodan
- 3× Defibrillators — Hellige
- 3× High-Frequency Electrosurgery Devices — Erbe, Martin
- 3× OP Universal Pumps — Atmos
- Mobile C-Arm — Siemens / Philips
- Patient Transfer Table
- 3× Instrument Trays
- 3× Stainless Steel Carriages
- 5× Perfusors

03 — Anesthesia Recovery Room

- 2× Patient Beds
- 2× Patient Supervision Monitors — Nikon Kodan
- ECG Unit — Hellige

04 — Emergency Surgery Ward

- Operating Table — Maquet, Schmitz
- Examination Bed — Schmitz
- OP Cover Light — Hanalux
- ECG Unit — Hellige
- High-Frequency Electrosurgery Device — Erbe, Martin
- Sonographic System — Siemens / Philips
- Stainless Steel Emergency Bandage Carrier — Haeberle

05 — Intensive Care Unit

- 3× Intensive Care Beds (Antidekubitus) — Stiegelmeier
- Wall Supply Element
- 3× Patient Control Monitors — Nikon Kodan
- ECG Unit — Hellige
- Defibrillator — Hellige
- 5× Infusion Stands
- 3× Automatic Infusion Devices
- 2× Pulmotors (Servo Ventilation) — Draeger
- 2× High-Pressure Injectors — Draeger
- 3× Double Infusion Pumps — Puritan-Bennet
- 3× Recrement Pumps — Aesculap
- Central Patient Surveillance System

06 — X-Ray Department

- Mammography Unit — Siemens / Philips
- Mobile X-Ray System — Siemens / Philips
- Mobile C-Arm — Siemens / Philips
- Sonographic System — Siemens / Philips
- 2× Electrographic Viewers — Planilux
- 2× Developing Units — AGFA

07 — Gynecology Ward

- Gynecological Examination Chair with Coloscope — Schmitz
- Sonographic System with Endovaginal Probe — GE
- 2× Blood Pressure Gauges — Boso
- 3× Stethoscopes — Littmann
- ECG System — Hellige
- Weighing Machine — Seta

08 — Delivery Ward

- 2× Delivery Beds — Maquet
- Wall Supply Element
- OP Cover Light — Hanalux
- Vacuum Extraction Unit
- Warm/Heating Bed — Maquet
- Recrement Pump — Atmos
- Infant Weighing Unit
- 2× Pulsoxymeter / Fetal Monitors — Draeger, Bennet
- Anaesthesia Device — Draeger

09 — Neonatal & Infant Ward

- 5× Infant Beds — Stieglmeyer
- 2× Warm/Heating Beds
- 5× Electric Breast Milk Pumpers
- Mobile Incubator — Draeger
- 2× Stationary Incubators — Draeger
- Reanimation System — Draeger
- Automatic Supervisory System — Siemens
- 2× Pulmotors (Infant) — Lifeway
- Recrement Pump — Atmos
- Heating Lamp
- 2× Infant Weighing Units — Seca
- 2× Infant Bathtubs — Draeger
- Care Combination (Furniture)

10 — Diagnostic Ward

- Cardiac Workplace / Treadmill — Schiller
- 2× Examination Beds — Eron

- Patient Weighing Unit — Seta
- Sonography System — Siemens / Philips
- ECG System — Hellige
- 3× Blood Pressure Gauges — Boso
- 3× Stethoscopes — Littmann

11 — Endoscopy Section

- Endoscopy Diagnostic Chair — Compact
- Video Endoscopy Workplace — Storz / Olympus
- Endoscope — Storz / Olympus
- Duodenoscope — Storz / Olympus
- Gastroscope — Storz / Olympus
- Colonoscope — Storz / Olympus
- Coloscope — Storz / Olympus
- Cardioscope — Storz / Olympus
- Laparoscope — Storz / Olympus
- Endoscope Storage Cabinet — Storz / Olympus
- Removal Pump — Atmos
- Endoscope Disinfection Bath

12 — Nursing Ward

- Mobile Bathtub
- Bathtub Lifting Unit
- 2× Function Modules
- 5× Clothes Carriages
- 5× Cleaning Carriages
- 2× Patient Transport Chairs
- 2× Patient Weighing Units — Haeberle

13 — Station Furnishing

- 100× Hospital Beds
- 100× Mattresses
- 100× Nightstands
- 20× Patient Lifting Units
- 10× Toilet Chairs

14 — Central Laboratory

- 3× Laboratory Tables — Hettich
- EPOS 5060 (Blood Examination)
- ESAT (Diabetes Examination)
- AVL 990 (Blood Gas)
- AVL 892 (Blood Gas)
- Mölab (Haemoautom.)
- BAKER 900 — Eppendorf

- Photometer — Eppendorf
- Laboratory Centrifuge — Selekttra / Hettich
- Laboratory Microscope — Zeiss

15 — Physiotherapeutic Ward

- Fully equipped physiotherapy department

16 — Miscellaneous Equipment

- 2× Rescue Cars, fully furnished — Mercedes-Benz
- Complete Set of Surgical Instruments

Optional MRI Upgrade

- Siemens Magnetom Essenza 1.5T or
- Siemens Spectra 3.0T

(Structural reinforcement may be required.)

Guarantee & Inspection

- **1-year guarantee**
- Inspection possible after LOI and POF
- Client inspection before shipment included
